Academic Qualifications

1979	Licentiaat Wetenschappen, afdeling Wiskunde. Ghent University, Belgium.
1981	Speciale Licentie Informatica. Ghent University, Belgium.
2000	Ph.D. in Communication Science, Ghent University, Belgium.

Positions Held

08/1981	08/2000	Head of Library Automation, University Library, Ghent University, Belgium.
02/1999	07/1999	Visiting Researcher, Research Library, Los Alamos National Laboratory, Los Alamos, NM, USA.
08/2000	09/2001	Visiting Professor, Computer Science Department, Information Science Group, Cornell University, Ithaca, NY, USA.
09/2001	02/2002	Director of Electronic Strategy and Programs, The British Library, London, UK.
04/2002	11/2018	Scientist (Level 5) and Team Leader, Digital Library Research and Prototyping Team, Research Library, Los Alamos National Laboratory, Los Alamos, NM, USA.
06/2010	11/2018	Visiting Professor, DANS (Data Archiving and Networked Services), The Hague, The Netherlands
01/2019	onward	Chief Innovation Officer at DANS (Data Archiving and Networked Services), The Hague, The Netherlands

Languages

Dutch	Mother tongue.
English	Fluent.
French	Used to be adequate for professional interactions while I was working in Belgium, but has deteriorated significantly by working in English speaking countries since 1999. I assume it would improve again through practice.

German Reasonable understanding and limited conversational capabilities.

Honors and Awards

2003	LITA/OCLC Frederick G. Kilgour Award for Research in Library and Information Technology.
2003	UKOLUG Tony Kent Strix Award.
2004	Charleston Advisor Five Star Award for an Individual.
2004	Best Poster Award, ACM/IEEE Joint Conference on Digital Libraries
2005	Los Alamos National Laboratory Distinguished Performance Award 2004.
2005	ANSI Meritorious Service Award 2005.
2005	LACASIS Contributions to Information Science and Technology Award 2005.
2006	SPARC Innovator (first recipient).
2006	Best Poster Award, ACM/IEEE Joint Conference on Digital Libraries
2010	Digital Preservation Award from the Digital Preservation Coalition.
2011	Vannevar Bush Best Paper Award, ACM/IEEE Joint Conference on Digital Libraries
2013	Los Alamos National Laboratory, Outstanding Innovation Award
2015	Los Alamos National Laboratory Fellows Award Prize for Outstanding Research in Science and Engineering
2017	CNI/ARL/EDUCAUSE Paul Evan Peters Award

Research Funding

09/1998	08/1999	Bijzondere Doctoraatsbeurs, Belgian Science Foundation.
02/1999	07/1999	Grant from the Council on Library and Information Resources to support travel and conference participation while conducting PhD research in the USA.
2001		Grant from the Digital Library Federation and the Coalition for Networked Information to support the activities of the Open Archives Initiative.
2002		Grant from the Digital Library Federation and the Coalition for Networked Information to support the activities of the Open Archives Initiative.
2004	2007	Grant from the Library of Congress's National Digital Information Infrastructure Preservation Program to conduct digital preservation research.
2004	2007	Grant from the US National Science Foundation for a research project related to cross-repository interoperability and workflows (Pathways).
2006	2008	Grant from the Andrew W. Mellon Foundation to support the Object Reuse and Exchange effort by the Open Archives Initiative (OAI-ORE).
2006	2008	Grant from the Andrew W. Mellon Foundation to research the feasibility of usage-based metrics for the assessment of scholarly impact (MESUR).
2008	2010	Grant from the Library of Congress's National Digital Information Infrastructure Preservation Program to research Web preservation (Tools for a Preservation-Ready Web).
2009	2010	Grant from the Andrew W. Mellon Foundation aimed at specifying a Web-centric annotation framework useable for scholarly applications (Open Annotation).
02/2009	08/2009	Sabbatical sponsored by the Los Alamos National Laboratory, and hosted by the University of New Mexico, Albuquerque, NM, USA.
2010	2011	Visiting Professor grant from the Royal Dutch Academy of Science (KNAW), hosted by the Data Archive and Networked Services (DANS), The Hague, The Netherlands.
2010	2012	Grant from the Library of Congress's National Digital Information Infrastructure Preservation Program to research Web preservation

- (Memento).
- 2011 2012 Follow-up grant from the Andrew W. Mellon Foundation aimed at specifying a Web-centric annotation framework useable for scholarly applications (Open Annotation).
- 2013 2014 Grant from the Sloan Foundation for the specification of an interoperable, web-centric, resource synchronization approach (ResourceSync).
- 2013 2015 Grant from the Andrew W. Mellon Foundation to quantify the extent of reference rot in web-based scholarly communication and explore approaches to combat it (Hiberlink).
- 2016 2019 Grant from the Andrew W. Mellon Foundation to explore web-centric approaches to archive the web-based scholarly record.

Career Highlights

- 1984 Leadership and coordination for the launch of library catalogue automation at Ghent University by joining the Belgian research library consortium LIBISnet.
- 1987 Leadership, coordination, and implementation of a local area network at the Ghent University Central Library that also provided wide area functionality, e.g. connecting to LIBISnet. It was the first local area network in a Belgian research library.
- 1989 Project management, concept and realization of the first generation of the Belgian Scientific Union Catalogue on CD-ROM (Collectieve Catalogus België), with Alberic Regent. CD-ROM contained over 2.000.000 titles held by Belgian scientific institutions. It was the first national union catalogue on CD-ROM in Europe.
- 1990 Leadership, coordination, and implementation of a multi-user CD-ROM consultation facility on the local area network of the Ghent University Central Library. This was the first CD-ROM local area network in a Belgian research library.
- 1991 1993 Leadership, coordination, and implementation of the Bibinfo solution on the Ghent University network. Bibinfo was a public access system that provided access to over 30 Gb of locally stored information (mainly Abstracting & Indexing databases on CD-ROM). Bibinfo was accessible from over 400 workstations in libraries and on researchers' offices. At the time of its introduction, this system was unique at the Belgian, European, and global level.
- 1991 1995 Project management, concept and realization of the second generation of the Belgian Scientific Union Catalogue on CD-ROM (Collectieve Catalogus België) with Alberic Regent and Jan Corthouts. SGML was introduced as a bibliographic exchange format. As far as can be verified this was the first usage of SGML to express MARC records. This SGML format later served as inspiration for international efforts aimed at specifying MARC in XML.
- 1993 1994 After a worldwide survey, SilverPlatter selects the Ghent University Central Library as one of six institutions, worldwide for beta-testing of their Electronic Reference Library, the first client-server solution for the consultation of Abstracting & Indexing databases delivered on CD-ROM.
- 1994 1995 Initiation of the concept for a Web interface for the SilverPlatter Electronic Reference Library (WebSPIRS), and collaboration with SilverPlatter for the realization.
- 1995 1996 Project Management for the selection process and the implementation of a new library housekeeping system for Ghent University, including compilation of the request for proposals, evaluation of proposals, market study, on-site visits. Aleph 500 from Ex Libris is selected and Ghent

- 1996 1997 University becomes the first library, worldwide, to make it operational.
 Project management, concept and realization of the third generation of the Belgian Scientific Union Catalogue on CD-ROM (Collectieve Catalogus België), with Jan Corthouts. This becomes the first union catalogue in the world in the SilverPlatter format. With this version, a student-edition of the union catalogue was introduced, available for 30 \$.
- 1996 Invited to become member of the Strategic Advisory Board of the Institute for Scientific Information (ISI) and later also for Thomson-Reuters Scientific. The Board consists of scholarly communication experts, including William Y. Arms, Blaise Cronin, Joshua Lederberg, Christine Borgman, Liz Lyon.
- 1996 2012 Lecturer at the annual TICER Summer School. On several occasions, participants rate my contributions as “best lecturer” or “best content”.
- 1997 Realization of the link-to-holdings facility between the SilverPlatter Electronic Reference Library and Aleph 500, based on ideas introduced in 1993.
- 1997 Project management, concept and realization of the Executive Lounge, a fully Web-based library portal that implements new visions of library services to end-users. Immediately after its launch, a Belgian Internet provider elects the Executive Lounge “site of the month”.
- 1997 1998 Project management for the Ghent University component of the Elektron project funded by the Flemish Government. Elektron aimed at the provision of electronic library services to a broad user community in Flanders.
- 1998 Grant from the Belgian Science Foundation to dedicate a full year on Ph.D. research (Bijzondere Doctoraatsbeurs).
- 1998 Conceptualization and initial realization of the context-sensitive, dynamic linking framework that would later become OpenURL and SFX.
- 1999 Initiation of the call for collaboration in the Universal Preprint Service Initiative, with Paul Ginsparg (creator of the Physics preprint server arXiv.org) and Rick Luce (then director of the Research Library of the Los Alamos National Laboratory). Fundraising for and organization of the first meeting held in Santa Fe, October 1999, which became a major catalyst for the Open Access movement.
- 1999 Conceptualization and realization of an advanced version of the context-sensitive, dynamic linking framework that would later become OpenURL and SFX. With Patrick Hochstenbach and Lieve Rottiers. The feasibility experiment includes Ghent University, Los Alamos National Laboratory, Wiley, American Physical Society, arXiv.org, etc.
- 2000 Initiation of the Open Archives Initiative and release of the Santa Fe Convention with Carl Lagoze. The Open Archives Initiative becomes a major catalyst for the Open Access movement.
- 2000 Ex Libris acquires the SFX linking server software from Ghent University. SFX is beta-tested at Harvard University, Caltech, Indiana University, Vanderbilt University and the Los Alamos National Laboratory. SFX is currently still widely used, worldwide, and competing OpenURL linking servers have emerged.
- 2000 Public release of the OpenURL draft, an interoperability specification for dynamic, context-sensitive linking. In the course of 2000, several companies in the information industry implement OpenURL (ISI, Ebsco Publishing, Institute of Physics Publishing, SilverPlatter, Bell&Howell Information and Learning, ingenta, H W Wilson, Swets Blackwell, the Gale Group, Cambridge Scientific Abstracts).
- 2000 Invited to become member of the Research Advisory Committee of the Online Computer Library Center (OCLC).
- 2000 2002 Initiation, coordination, and contribution to the effort to create the Open Archives Initiative Protocol for Metadata Harvesting (OAI-PMH). The

- protocol becomes widely adopted by libraries, repositories, publishers, and Web portals for the exchange of metadata.
- 2001 2005 Major contributor to the ANSI/NISO Z39.88-2004 Standard “OpenURL Framework for Context-Sensitive Services”. The standard is based on aforementioned concepts regarding dynamic and context-sensitive linking and becomes widely adopted.
- 2002 2005 Conceptualization, coordination, and realization of the bX article recommender service with Johan Bollen. The system leverages usage logs recorded by OpenURL linking servers to generate recommendations. Ex Libris acquires the system from the Los Alamos National Laboratory and deploys it globally.
- 2004 Conceptualization, coordination, and realization of the aDORe repository software that is designed and developed to be a long term digital asset repository for the Research Library of the Los Alamos National Laboratory. The design attracts international attention because of its highly modular nature.
- 2006 2008 Research into alternative metrics for the assessment of scholarly impact, with Johan Bollen, in the context of the MESUR project. The project is the first to scientifically show that scholarly usage data exhibits a meaningful structure that can be leveraged for the definition of impact metrics. The MESUR results are a significant catalyst for a variety of efforts aimed at defining new impact metrics, including as alt.metrics.
- 2006 2008 Initiation, coordination, and contribution to the effort to create the Open Archives Initiative Object Reuse and Exchange specification (OAI-ORE). The protocol’s adoption is growing steadily in scientific data infrastructures, cultural heritage services, and linked data applications.
- 2007 2008 Coordination of the effort to create the open source djatoka image server. The server becomes widely used, among others, in digital humanities projects.
- 2009 2010 Member of the European Union High Level Expert Group on Scientific Data.
- 2009 2013 Conceptualization of the Memento “Time Travel for the Web” protocol with Michael Nelson and Robert Sanderson, and coordination of a variety of efforts aimed at spreading Memento adoption. Memento receives high praise in the digital preservation community but also from Web gurus such as Sir Tim Berners-Lee. Most public web archives, worldwide, meanwhile support the Memento protocol.
- 2009 2014 Initiation, leadership, and contribution to the Open Annotation effort aimed at devising a Web-centric annotation framework useable for scholarly applications. The specification that resulted from this effort became the core of the W3C Open Annotation standard.
- 2010 2014 Contributions to the SharedCanvas approach for representing and interacting with digitized manuscripts. SharedCanvas attracts significant attention in the digital humanities community and becomes an integral component of the International Image Interoperability Framework (IIIF), which is being adopted, worldwide.
- 2011 2014 Initiation, coordination, and contribution to the NISO ResourceSync effort for Web-centric resource synchronization framework. Is published as ANSI/NISO Z39.99-2014.
- 2014 2015 Conceptualization, design, and coordination of development for the Time Travel portal that allows discovering archived web resources in web archives, worldwide. A year after its launch, the portal handles 50 million transactions per day.
- 2014 2015 Conceptualization and specification of the Robust Link approach aimed at combating reference rot for web links, based on decoration of links with temporal and archival information.

2014	onward	Conceptualization and specification of the Signposting approach to achieve interoperability for navigation across scholarly web resources.
2016	onward	Exploration of the use of decentralized web concepts to scholarly communication.
2017		Recipient of the CNI/ARL/EDUCAUSE Paul Evan Peters Award, previously awarded to Tim Berners-Lee (inventor of the Web), Paul Ginsparg (inventor of the arxiv.org preprint server), Brewster Kahle (inventor of the Internet Archive).

Teaching

01/2001	05/2001	Cornell University. Computing Methods for Digital Libraries (CS502)
1996	2012	Tilburg University. International Summer School on the Digital Library. Various topics related to innovative use of technology in digital libraries.
2001	2005	Emory University. Frye Leadership Institute. Various topics related to innovations in scholarly communication.
2001	Onward	Tutorials at various conferences related to information interoperability technologies.

Service

Expert Committees

Member of numerous advisory boards and expert committees for the scholarly information industry, funding agencies, and funded projects including but not limited to: ISI, Thomson-Reuters Scientific, SilverPlatter, Ex Libris, CrossRef, OCLC, Swets, JISC, DINI, SURF, European Commission, National Science Foundation, Europeana, Planets, OpenAIRE, EOSCPilot, Thor, EUDAT.

Peer Review

Peer Review of papers and project proposals for various venues including but not limited to: Joint Conference on Digital Libraries, European Conference on Digital Libraries, Theory and Practice of Digital Libraries, Linked Data on the Web, European Semantic Web Conference, Conference on Information and Knowledge Management, International Semantic Web Conference, Semantics, European Commission.

Conference Organization

Member of the steering committee of the OAI Workshops on Innovations in Scholarly Communication since its inauguration.

Program Chair of the Joint Conference on Digital Libraries 2012.

Steering Committee member of the Joint Conference on Digital Libraries.

PhD Committee Member

Jeroen Bekaert (Ghent University), Ruben Verborgh (Ghent University), Martin Klein (Old Dominion University), Ahmed Alsum (Old Dominion University), Sam Coppens (Ghent University), Miel Vander Sande (Ghent University)
